

Benefits of AIRPHX for Commercial Gyms

Our loyal customers with years of experience deploying AIRPHX in their facilities have provided us with lots of feedback on the benefits they have observed after installing AIRPHX in their clubs. An overview is provided below.

- Marketing advantage in recruiting new members – pointing to our wall mounted units during prospective member tours
- Retention of existing members – this became particularly important over the past couple of years
- Positive PR including in print, on television and in social media
- Enhanced reputation as an industry leader in member health
- Cleaner smelling facilities
- Reduced cleaning/disinfection costs – not just chemicals and supplies, but much less costly labor
- Eliminating errors and injuries associated with human application of chemicals
- Mold remediation and prevention
- Disinfecting hard to clean surfaces like turf
- Risk mitigation – insurance brokers have noted that state of the art disinfection may be factored into premium costs
